

PROJECT NAME: KPSC WEBSITE									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
PSC_0001	Login page	Verify that the login page contains fields for Username and Password	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The fields for Username and Password should be present	The fields for Username and Password is present	PASS	
PSC_0002	Login Page	Verify that the login page contains button for Forgot Password	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The button for Forgot Password should be present	The button for Forgot Password is present	PASS	
PSC_0003	Login Page	Verify that the login page contains the field for Access Code	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The field for Access Code should be Present	The field for Access Code is present	PASS	
PSC_0004	Login Page	Verify whether user has the option to login using userid/mail-id/mobile number	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The User should have the option to login using userid/mail-id/mobile number	The user has the option to login with userid only	FAIL	
PSC_0005	Login Page	Verify that the login page contains button for New registration/ Signup	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The button for New registration/Signup should be present	The button for New registration/Signup is present	PASS	
PSC_0006	Login Page	Verify whether any unnecessary input fields or buttons are present	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	There should not be any unnecessary input fields or buttons	The New Registration link and the Signup button both have same purpose and both of them are redirected to same page, Only need a single button with '/' symbol	FAIL	
PSC_0007	Login Page	Verify whether the Access Code given is visible	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The given access code is visible	The given access code is visible	PASS	
PSC_0008	Login Page	Verify whether show password option is present in the password field	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The show password option should be present	The show password option is not present	FAIL	
PSC_0009	Login Page	Verify whether the refresh button for Access code is given	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The refresh button for Access code should be present	The refresh button for Access code is present	PASS	
PSC_0010	Login Page	Verify whether the Audio option for Access Code is given	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The Audio Button for Access code should be present	The Audio Button for Access code is present	PASS	
PSC_0011	Login Page	Verify whether the Emblem of Authority is aligned	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The Emblem should be aligned properly	The Emblem is not aligned properly	FAIL	
PSC_0012	Login Page	Verify whether 'Case Sensitive' prompt is displayed along with Access Code field name	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The 'Case Sensitive' prompt should be displayed along with Access Code field name	The 'Case Sensitive' prompt is displayed along with Access Code field name	PASS	
PSC_0013	Login Page	Verify whether the input fields and buttons have hover transition effect enabled for better user experience	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The input fields and buttons have hover transition effect enabled	Only Forgot password, New Registration links are having the transition effect	FAIL	
PSC_0014	Login Page	Verify whether the images and texts displayed in login page is clear and in readable form	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The images and texts displayed in login page should be in readable form	The images and texts displayed in login page is in readable form	PASS	
PSC_0015	Login Page	Verify whether the Access Code image and field is aligned properly	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The Access Code Image and field should be aligned properly	The Access Code Image and field is not aligned properly	FAIL	
PSC_0016	Login Page	Verify whether the HelpDesk Details pane shows the timings of working hours to contact them	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The HelpDesk Details pane should show the timings of working hours to contact them	The HelpDesk Details pane not showing the timings of working hours to contact them	FAIL	
PSC_0017	Login Page	Verify whether the New Registration link is in button format to improve user experience	valid url	goto website https://thulasi.psc.kerala.gov.in/thulasi/	Nil	The New Registration link should be in button format	The New Registration Link is not in Button format	FAIL	
PSC_0018	Login Page	Verify whether the password is shown in masked form	valid url	1) goto website 2) Enter Password	password: 123456	The password should be in masked form	The password is in masked form	PASS	

PROJECT NAME: KPSC WEBSITE								
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status
PSC_0019	Login Page	Verify whether the page supports input from mouse Right button	valid url	1) goto website 2) Click Mouse Right button	Nil	The pointer should accept the input and display the options menu bar	The pointer is not accepting the input from mouse right button and not showing options menu bar	FAIL
PSC_0020	Login Page	Verify whether the page supports input from mouse left button	valid url	1) goto website 2) Click Mouse left button	Nil	The pointer should select the item where it is pointed	The pointer selects the items where the pointer is pointed	PASS
PSC_0021	Login Page	Verify whether the page supports copy/paste option using ctrl+c and ctrl+v	valid url	1) goto website 2) Select text 3) Perform ctrl+c and ctrl+v commands	Nil	The ctrl+c command should copy the selected text and ctrl+v command should paste the copied text	The ctrl+c command copies the selected text and ctrl+v command pastes the copied text	PASS
PSC_0022	Login Page	Verify whether , able to copy the password from the password field	valid url	1) goto website 2) Enter password 3) Copy password 4) Paste copied password in the code field	Nil	The password should not be able to be copied from password field	The password cannot be copied from password field	PASS
PSC_0023	Login Page	Verify whether the Refresh button for Access code make change to access code shown before	valid url	1) goto website 2) Select Refresh Button for Access Code	Nil	Change in access code must be occurred	Change in access code is occurred	PASS
PSC_0024	Login Page	Verify whether selecting Home button redirects to the home page/login page	valid url	1) goto website. 2) Select Home Button Option	Nil	The page should redirect to home page	The page redirected to the Home page	PASS
PSC_0025	Login Page	Verify whether selecting contact option redirects the page to contact details page	valid url	1) goto website. 2) Select Contact Button Option	Nil	The page should redirect to contact details page	The page can't redirect to contact details page	FAIL
PSC_0026	Login Page	Verify whether selecting site map redirects to the site map page	valid url	1) goto website. 2) Select Site Map Option	Nil	The page should redirect to Site page	The page can't redirect to site map page	FAIL
PSC_0027	Login Page	Verify that the User is redirected to the Forgot password page when clicking on the Forgot Password link	valid url	1) goto website 2) Select Forgot Password	Nil	The user should be redirected to the Forgot Password page	The user is redirected to Forgot Password page	PASS
PSC_0028	Login Page	Verify whether Resize Photograph/Signature option is active	valid url	1) goto website. 2) Select Resize Photograph/Signature Option	Nil	The page should be redirected to Resize Photograph/Signature window	The page gets redirected to Resize Photograph/Signature window	PASS
PSC_0029	Login Page	Verify whether Bulletin Subscription option is active	valid url	1) goto website. 2) Select Bulletin Subscription	Nil	The page should be redirected to Bulletin Subscription window	The page gets redirected to Bulletin Subscription window	PASS
PSC_0030	Login Page	Verify whether Frequently Asked Questions option is active	valid url	1) goto website 2) Select Frequently Asked Questions option	Nil	The page should get redirected to Frequently Asked Questions window	The page gets redirected to Frequently Asked Questions window	PASS
PSC_0031	Login Page	Verify whether SMS Options Available option is active	valid url	1) goto website 2) Select SMS Options Available	Nil	The page should get redirected to SMS Options Available window	The page gets redirected to SMS Options Available window	PASS
PSC_0032	Login Page	verify that Enter key works as substitute for the Sign-in button	valid url	1) goto website. 2) Press the Enter key in the keyboard	Nil	The sign-in option should be executed	The sign-in option is executed	PASS
PSC_0033	Login Page	verify whether login successful when Username and Password become blank	valid url	1) goto website. 2) Enter login button	Nil	Couldn't login into site and an error message should be displayed	Can't be login and an error message is displayed	PASS
PSC_0034	Login Page	Verify whether login successful with valid username and valid password without entering access code	1) valid url 2) valid username 3) valid password	1) goto website 2) Enter valid username 3) Enter valid password 4) Enter Login	username: vignesh1234 password:4321vignesh	An error message should be displayed regarding access code not entered	An error message is displayed regarding access code is not entered	PASS
PSC_0035	Login Page	verify whether login successful with invalid username and invalid password with valid Access Code	1) valid url 2) valid Access Code	1) goto website. 2) Enter invalid Username 3) Enter invalid Password 4) Enter Valid Access Code 5) Enter Login Button	username : athul112 password : 0000 Access Code: Xg8Xbb	Couldn't login into site and an error message should be displayed regarding invalid username or password	Can't be login and an error message is displayed showing invalid username or password	PASS

PROJECT NAME: KPSC WEBSITE								
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status
PSC_0036	Login Page	verify whether login successful with invalid username and invalid password with invalid Access Code	valid url	1) goto website. 2) Enter invalid Username 3) Enter invalid Password 4) Enter Invalid Access Code 5) Enter Login Buton	username : athul112 password : 0000 Access Code: 00000	Couldn't login into site and an error message should be displayed showing invalid access code	Can't be login and an error message is displayed showing invalid access code	PASS
PSC_0037	Login Page	Verify whether login successful with valid username and valid password with valid Access code	1) valid url 2) valid username 3) valid password 4) valid access code	1) goto website. 2) Enter valid Username 3) Enter valid Password 4) Enter valid Access Code 5) Enter Login Buton	username: vignesh1234 password:4321vignesh access code:FxG6Fr	Should be able to login successfully and redirected to user profile page	Login successful and redirected to user profile page	PASS
PSC_0038	Forgot Password Page	Verify whether the text displayed does not contain any mistakes	valid url	1) goto website 2) Select Forgot Password	Nil	The text displayed in the Forgot Password should not contain any mistakes	The text displayed in the Forgot Password contains a mistakes - "The word "Registered" is shown wrong as "Regestered"	FAIL
PSC_0039	Forgot Password Page	Verify whether the close button redirects to the login page	valid url	1) goto website 2) Select Forgot Password 3) Select Close	Nil	The page should redirect to login page	The page redirects to login page	PASS
PSC_0040	Forgot Password Page	Verify whether the error message shows when proceeding with blank userid and DOB	valid url	1) goto website 2) Select Forgot Password	Nil	The page should display the error message and showing that field is required	The page displays the error message and shows that field is required	PASS
PSC_0041	Forgot Password Page	Verify that, leaving the userid blank and selecting the DOB pops out a error message in userid field showing it is required and vice versa in the DOB field also	valid url	1) goto website 2) Select Forgot Password	Nil	An error message should pop out showing this field is required	An error message pops out showing this field is required	PASS
PSC_0042	Forgot Password Page	Verify that 'the field is required' message shown at the time when proceeding with blank userid or DOB pops out when entering the required field	valid url	1) goto website 2) Select Forgot Password	Nil	The error message 'field is required' should pop out when entering the required field	The error message does not pops out when entering the required field	FAIL
PSC_0043	Forgot Password Page	Verify that userid and DOB fields are aligned properly	valid url	1) goto website 2) Select Forgot Password	Nil	The userid and DOB fields should be aligned properly	The userid and Dob fields are aligned properly	PASS
PSC_0044	Forgot Password Page	Verify whether the DOB field has calender icon to choose date of birth which enhances user friendly property	valid url	1) goto website 2) Select Forgot Password	Nil	The DOB field should contain calender icon	The DOB field does not have calender icon	FAIL
PSC_0045	Forgot Password Page	Verify whether asterisk sign is provided alongside with userid and DOB to inform user that it is mandatory	valid url	1) goto website 2) Select Forgot Password	Nil	The asterisk sign should be there alongside userid and DOB	The asterisk sign is present	PASS
PSC_0046	Forgot Password Page	Verify whether when proceeding with valid userid and DOB the page redirects to the OTP validation page	1) valid url 2) valid userid 3) valid DOB	1) goto website 2) Select Forgot Password 3) Enter userid 4) Enter DOB 5) Select Proceed	username: vignesh1234 DOB: 20/01/2001	The page should redirect to the OTP validation page	The page redirects to OTP validation page	PASS
PSC_0047	Forgot Password Page	Verify that proceeding with OTP generation generate OTP to both mobile number and mailid	valid url	1) goto website 2) Select Forgot Password 3) Enter userid 4) Enter DOB 5) Select Proceed	username: vignesh1234 DOB: 20/01/2001	The OTP should be delivered to mailid and mobile number	The OTP is delivered to mailid and mobile number	PASS

PROJECT NAME: KPSC WEBSITE									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
PSC_0048	Forgot Password Page	Verify that in the OTP submission page the text displayed does not contain any mistakes	valid url	1) goto website 2) Select Forgot Password 3) Enter userid 4) Enter DOB 5) Select Proceed 6) Select Proceed	Nil	The page should not contain any text mistakes	The page displays text ' enter otp received on mobile' no mailid is mentioned there	FAIL	
PSC_0049	Forgot Password Page	Verify that error message pop up when proceeding with blank OTP	valid url	1) goto website 2) Select Forgot Password 3) Enter userid 4) Enter DOB 5) Select Proceed 6) Select Proceed 7) Select Proceed	Nil	An error message should pop up	Error message displayed	PASS	
PSC_0050	Forgot Password Page	Verify that 'the field is required' message shown at the time when proceeding with blank OTP pops out when entering the field	valid url	1) goto website 2) Select Forgot Password 3) Enter userid 4) Enter DOB 5) Select Proceed 6) Select Proceed	Nil	The 'the field is required' message should pop out	The 'the field is required' message does not pops out	FAIL	
PSC_0051	Forgot Password Page	Verify that proceeding with invalid OTP displays error message	valid url	1) goto website 2) Select Forgot Password 3) Enter userid 4) Enter DOB 5) Select Proceed 6) Select Proceed 7) Invalid OTP 8) Select Proceed	Nil	The page should display error message regarding incorrect OTP	The page shows error message regarding incorrect OTP	PASS	
PSC_0052	Forgot Password Page	Verify that page timeout option is enabled in OTP validation page	valid url	1) goto website 2) Select Forgot Password 3) Enter userid 4) Enter DOB 5) Select Proceed 6) Select Proceed	Nil	The page should have the timeout function active	The page does not have timeout function	FAIL	
PSC_0053	Forgot Password Page	Verify that proceeding with valid OTP redirects to new password entering page	1) valid url 2) valid OTP	1) goto website 2) Select Forgot Password 3) Enter userid 4) Enter DOB 5) Select Proceed 6) Select Proceed 7) valid OTP 8) Select Enter	Nil	The page should redirect to new password entering page	The page redirects to new password entering page	PASS	
PSC_0054	Forgot Password Page	Verify that, in the new password entering page all the fields are aligned properly	valid url	1) goto website 2) Select Forgot Password 3) Enter userid 4) Enter DOB 5) Select Proceed 6) Select Proceed 7) valid OTP 8) Select Enter	Nil	The fields should be properly aligned	The captcha image is not aligned properly	FAIL	
PSC_0055	Forgot Password Page	Verify that , in the new password entering page is there audio option for the captcha field	valid url	1) goto website 2) Select Forgot Password 3) Enter userid 4) Enter DOB 5) Select Proceed 6) Select Proceed 7) valid OTP 8) Select Enter	Nil	There should be audio option for the captcha field	There is not audio option for the captcha field	FAIL	
PSC_0056	Signup Pge	Verify that all the text fields and text elements in the page are aligned and spelled correctly	Valid url and signup button should be present in the home page	1) goto website 2) select signup	Nil	All the text fields and text elements in the page should be aligned and spelled correctly	All the text fields and text elements in the page are aligned and spelled correctly	PASS	

PROJECT NAME: KPSC WEBSITE									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
PSC_0057	Signup Pge	Verify that there is confirmation field for Name and DOB fields	valid signup url	1) goto website 2) select signup	Nil	There should be confirmation fields for name and DOB	There is confirmation fields for Name and DOB	PASS	
PSC_0058	Signup Pge	Verify that asterisk sign is mentioned for the mandatory fields	valid signup url	1) goto website 2) select signup	Nil	The asterisk sign should be present for the mandatory fields	The asterisk sign is present for the mandatory fields	PASS	
PSC_0059	Signup Pge	Verify that there is calender option icon present in the DOB field	valid signup url	1) goto website 2) select signup	Nil	The calender option icon should be present in the DOB field	The Calender option icon is not present in the DOB field	FAIL	
PSC_0060	Signup Pge	Verify that there is confirmation field for ID Proof field	valid signup url	1) goto website 2) select signup	Nil	The confirmation field should be present for ID proof field	The Confirmation field is present for ID Proof field	PASS	
PSC_0061	Signup Pge	Verify that whether the conditions for password are displayed	valid signup url	1) goto website 2) select signup	Nil	The Conditions for password should be displayed	The conditions for password is not displayed	FAIL	
PSC_0062	Signup Pge	Verify that show password icon is present in the password fields	valid signup url	1) goto website 2) select signup	Nil	The show password icon should be present in the password fields	The show password icon is not present in the password fields	FAIL	
PSC_0063	Signup Pge	Verify that audio option is present for the access code image	valid signup url and access code is present	1) goto website 2) select signup	Nil	The Audio Button for Access code should be present	The Audio Button for Access code is not present	FAIL	
PSC_0064	Signup Pge	Verify whether the register button is aligned properly	valid signup url	1) goto website 2) select signup	Nil	The Register button should be aligned properly	The Register button is not aligned properly	FAIL	
PSC_0065	Signup Pge	Verify whether the page contains Button to redirect to previous page	valid signup url and button to redirect to previous page	1) goto website 2) select signup	Nil	The page should contain button to redirect to previous page	The page does not contain button for redirecting to previous page	FAIL	25
