

PROJECT NAME : SWAG LABS TESTING									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
SWL-0001	Login page	Verify that the login page contains fields for Username and Password	valid url	goto website <a href="https://www.saucedemo.com/">https://www.saucedemo.com/</a>	Nil	The fields for Username and Password should be present	The fields for Username and Password is present	PASS	
SWL-0002	Login Page	Verify whether the login page contains captcha field to enhance security	valid url	goto website <a href="https://www.saucedemo.com/">https://www.saucedemo.com/</a>	Nil	The login page should contain captcha field	The login page does not contain captcha field	FAIL	1
SWL-0003	Login Page	Verify whether user has the option to login using userid/mail-id/mobile number	valid url	goto website <a href="https://www.saucedemo.com/">https://www.saucedemo.com/</a>	Nil	The User should have the option to login using userid/mail-id/mobile number	The user has the option to login with userid only	FAIL	2
SWL-0004	Login Page	Verify whether any unnecessary input fields or buttons are present	valid url	goto website <a href="https://www.saucedemo.com/">https://www.saucedemo.com/</a>	Nil	There should not be any unnecessary input fields or buttons	There is no unnecessary input fields or buttons	PASS	
SWL-0005	Login Page	Verify whether show password option is present in the password field	valid url	goto website <a href="https://www.saucedemo.com/">https://www.saucedemo.com/</a>	Nil	The show password option should be present	The show password option is not present	FAIL	3
SWL-0006	Login Page	Verify whether the input fields and buttons have hover transition effect enabled for better user experience	valid url	goto website <a href="https://www.saucedemo.com/">https://www.saucedemo.com/</a>	Nil	The input fields and buttons have hover transition effect enabled	The input fields and buttons does have hover transition effect enable	FAIL	4
SWL-0007	Login Page	Verify whether the images and texts displayed in login page is clear and in readable form	valid url	goto website <a href="https://www.saucedemo.com/">https://www.saucedemo.com/</a>	Nil	The images and texts displayed in login page should be in readable form	The images and texts displayed in login page is in readable form	PASS	
SWL-0008	Login Page	Verify whether the page header is aligned properly with better design	valid url	goto website <a href="https://www.saucedemo.com/">https://www.saucedemo.com/</a>	Nil	The page header should be aligned properly with better design	The page does not contain banner and the header provided is in normal font format	FAIL	5
SWL-0009	Login Page	Verify whether the password is shown in masked form	valid url	1) goto website 2) Enter Password	password: 123456	The password should be in masked form	The password is in masked form	PASS	
SWL-0010	Login Page	Verify whether the page supports input from mouse Right button	valid url	1) goto website 2) Click Mouse Right button	Nil	The pointer should accept the input and display the options menu bar	The pointer accepts the input from mouse and options menu bar	PASS	
SWL-0011	Login Page	Verify whether the page supports input from mouse left button	valid url	1) goto website 2) Click Mouse left button	Nil	The pointer should select the item where it is pointed	The pointer selects the items where the pointer is pointed	PASS	
SWL-0012	Login Page	Verify whether the page supports copy/paste option using ctrl+c and ctrl+v	valid url	1) goto website 2) Select text 3) Perform ctrl+c and ctrl+v commands	Nil	The ctrl+c command should copy the selected text and ctrl+v command should paste the copied text	The ctrl+c command copies the selected text and ctrl+v command pastes the copied text	PASS	
SWL-0013	Login Page	Verify whether , able to copy the password from the password field	valid url	1) goto website 2) Enter password 3) Copy password 4) Paste copied password in the username field	Nil	The password should not be able to be copied from password field	The password cannot be copied from password field	PASS	
SWL-0014	Login Page	verify that Enter key works as substitute for the Sign-in button	valid url	1) goto website. 2) Press the Enter key in the keyboard	Nil	The sign-in option should be executed	The sign-in option is executed	PASS	
SWL-0015	Login Page	verify whether login successful when Username and Password become blank	valid url	1) goto website. 2) Enter login button	Nil	Couldn't login into site and an error message should be displayed	Can't be login and an error message is displayed	PASS	
SWL-0016	Login Page	Verify whether login successful with given valid username and valid password	1) valid url 2) given valid username 3) valid password	1) goto website 2) Enter given valid username 3) Enter valid password 4) Enter Login	username: standard_user  password: secret_sauce	The user should be able to login to the account	The user is able to login to the account	PASS	
SWL-0017	Login Page	Verify whether login successful with given valid username and valid password	1) valid url 2) given valid username 3) valid password	1) goto website 2) Enter given valid username 3) Enter valid password 4) Enter Login	username: locked_out_user  password: secret_sauce	The user should be able to login to the account	The user is not able to login to the account, showing error 'the user has been locked out'	FAIL	6
SWL-0018	Login Page	Verify whether login successful with given valid username and valid password	1) valid url 2) given valid username 3) valid password	1) goto website 2) Enter given valid username 3) Enter valid password 4) Enter Login	username: problem_user  password: secret_sauce	The user should be able to login to the account	The user is able to login to the account	PASS	

PROJECT NAME : SWAG LABS TESTING									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
SWL-0019	Login Page	Verify whether login successful with given valid username and valid password	1) valid url 2) given valid username 3) valid password	1) goto website 2) Enter given valid username 3) Enter valid password 4) Enter Login	username: performance_glitch_user  password: secret_sauce	The user should be able to login to the account	The user is able to login to the account	PASS	
SWL-0020	Login Page	Verify whether login successful with given valid username and valid password	1) valid url 2) given valid username 3) valid password	1) goto website 2) Enter given valid username 3) Enter valid password 4) Enter Login	username: error_user  password: secret_sauce	The user should be able to login to the account	The user is able to login to the account	PASS	
SWL-0021	Login Page	Verify whether login successful with given valid username and valid password	1) valid url 2) given valid username 3) valid password	1) goto website 2) Enter given valid username 3) Enter valid password 4) Enter Login	username: visual_user  password: secret_sauce	The user should be able to login to the account	The user is able to login to the account	PASS	
SWL-0022	Login Page	Verify whether login with all the given user accounts redirects to user page without any delay or issues	1) valid url 2) given valid username 3) valid password	1) goto website 2) Enter given valid username 3) Enter valid password 4) Enter Login	username: standard_user locked_out_user problem_user performance_glitch_user error_user visual_user  Password: secret_sauce	All the given user accounts should be able to login without any delay or issues	The user account 'performance_glitch_user' generates a delay in redirecting to the user page	FAIL	7
SWL-0023	Login Page	verify whether login successful with invalid username and invalid password	1) valid url 2) valid invalid username 3) valid invalid password	1) goto website. 2) Enter invalid Username 3) Enter invalid Password 5) Enter Login Buton	username : athul112 password : 0000	Couldn't login into site and an error message should be displayed regarding invalid username or password	Can't be login and an error message is displayed showing invalid username or password	PASS	
SWL-0024	Login Page	verify whether login successful when Username and Password become blank	valid url	1) goto website 2) Select Login button	Nil	User should not be able to login and error message have to be displayed regarding username and password not entered	The user is not able to login to the account, the error message is displayed regarding username and password not entered	PASS	
SWL-0025	Login Page	Verify whether the error message alignment is proper when login with given valid userid and invalid password	1) valid url 2) valid username	1) goto website. 2) Enter valid Username 3) Enter invalid Password 5) Enter Login Buton	username: standard_user locked_out_user problem_user performance_glitch_user error_user visual_user  Password: secret_sauce	The error message should be aligned and able to be read easily by the user	The error message box is not aligned properly and cannot able to read what exactly the error says	FAIL	8
SWL-0026	product page	Verify whether the listed items in the page are aligned properly	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	username: standard_user  password: secret_sauce	The listed items in the page should be aligned properly	The listed items are aligned properly	PASS	
SWL-0027	product page	Verify whether the hover transition effect is active in the cart icon	1) valid url 2) Cart icon is present	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The hover transition effect should be active	The hover transition effect is not active in the cart icon	FAIL	9
SWL-0028	product page	Verify whether, in the filter option field clicking on the menu expand icon expands the filter option	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	Clicking on the expand icon filter option field the filter option should expand to show the options	When clicking on the expand icon no response is generated but when clicking on the field expands the options	FAIL	10
SWL-0029	product page	Verify whether the product page contains the button to increase the quantity of selected product	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The product page should contain the button to increase the quantity of the selected product	There is no button to increase the quantity of selected product	FAIL	11
SWL-0030	product page	Verify whether the page contains option to change the currency format	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The page should contain option to change the currency format	The page does not contain the option to change currency format	FAIL	12

PROJECT NAME : SWAG LABS TESTING									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
SWL-0031	product page	Verify whether the description of each product is aligned properly	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The description of each product should be aligned properly	The description of each product is not aligned properly	FAIL	13
SWL-0032	product page	Verify whether clicking on the name of the product redirects to the product detail page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Product name	Nil	The user should be redirected to the product detail page	The user is redirected to the product detail page	PASS	
SWL-0033	product page	Verify whether clicking on the product image redirects to the product details page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product image	Nil	The user should be redirected to the product detail page	The user is redirected to the product detail page	PASS	
SWL-0034	product page	Verify whether selecting add to card for a products make change to the number of items in the cart icon	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select add to cart	Nil	Selecting add to card for a products should make changes to the number of items in the cart icon	selecting add to card for a products make changes to the number of items in the cart icon	PASS	14
SWL-0035	product page	Verify whether the filter options for displaying the products lists works properly	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select filter option	Nil	The filter options for displaying the products lists should works properly	The filter options for displaying the products lists works properly	PASS	
SWL-0036	product page	Verify whether the page displays the name of user logged in	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The page should display the name of user logged in	The page does not display the name of user logged in	FAIL	
SWL-0037	product page	Verify the page contains User profile section	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The page should contain User profile section	The page Does not contain User profile section	FAIL	15
SWL-0038	product page	Verify whether when selecting menu icon displays the menu options	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Menu Icon	Nil	Selecting the Menu Icon should display the menu options	Selecting the Menu Icon displays the menu options	PASS	
SWL-0039	product page	Verify that the About option in dropdown menu redirects to the about page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select About	Nil	Selecting About Option should redirect to the about page	Selecting About option redirects to the about page	PASS	
SWL-0040	product page	Verify whether selecting remove option removes the product from cart	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select add to cart 7) Select Remove	Nil	Removes the product from cart	The product has been removed from cart	PASS	16
SWL-0041	product page	Verify that the Logout option in dropdown menu logs out the user	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Logout	Nil	Selecting Logout option should logout the user	Selecting Logout option logs out the user	PASS	
SWL-0042	product page	Verify whether the page contains Add to Wishlist option for the product	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The page should contain Add to wishlist option	The page does not contain Add to Wishlist Option	FAIL	
SWL-0043	product page	Verify whether selecting Twitter Icon redirects to company twitter page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The page should redirect to company Twitter page	The page redirects to company Twitter page	PASS	

PROJECT NAME : SWAG LABS TESTING									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
SWL-0044	product page	Verify whether selecting Facebook Icon redirects to company facebook page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The page should redirect to company facebook page	The page redirects to company facebook page	PASS	
SWL-0045	product page	Verify whether selecting LinkedIn Icon redirects to company linkedin page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The page should redirects to company linkedin page	The page redirects to company linkedin page	PASS	
SWL-0046	product page	Verify whether the page contains search bar to find specific products	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The page should contain search bar	The dpage does not contain search bar	FAIL	17
SWL-0047	product page	Verify whether the page has timeout option enabled if the page is idle for long time	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton	Nil	The page should have timeout option enabled	The timeout option enabled is getting the user logged out too fast	FAIL	18
SWL-0048	product page	Verify that after applying filters to the product list, when selecting the Reset App State option in the dropdown menu restores the list items to initial position	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Apply filter 7) Select Reset App State Option	Nil	The product list should be restored to the initial position	Only the cart is getting cleared ,the selected add to cart in product page is not becoming in its default condition	FAIL	19
SWL-0049	Product Detail Page	Verify that the detail page is aligned properly	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product	Nil	The page contents should be aligned properly	The product image size is not aligned properly	FAIL	20
SWL-0050	Product Detail Page	Verify that the page contains Add to Cart Option	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product	Nil	The page should contain Add to Cart option	The page contains Add to Cart option	PASS	
SWL-0051	Product Detail Page	Verify whether selecting add to card for a products make change to the number of items in the cart icon	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product 7) Select add to cart	Nil	Selecting add to card for a products should make changes to the number of items in the cart icon	selecting add to card for a products make changes to the number of items in the cart icon	PASS	
SWL-0052	Product Detail Page	Verify whether the product detail page contains the button to increase the quantity of selected product	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product	Nil	The product detail page should contain the button to increase the quantity of the product	There is no button to increase the quantity of product	FAIL	21
SWL-0053	Product Detail Page	Verify whether the page shows available stock of the product	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product	Nil	The page should show available stock quantity	The page does not shows available stock quantity	FAIL	22
SWL-0054	Product Detail Page	Verify whether the page contains Buy now option	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product	Nil	The page should contain Buy now option	The page does not contains Buy now option	FAIL	23
SWL-0055	Product Detail Page	Verify whether the user be able to select the image for detailed view	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product 7) Select image	Nil	The user should be able to select the image	The user Can't select the image	FAIL	24

PROJECT NAME : SWAG LABS TESTING									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
SWL-0056	Product Detail Page	Verify whether the Add to Cart ia having hover transition effect enabled to make it more user friendly	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product	Nil	The Add to cart button should have transition effect enabled	The Add to cart button does not have transition effect	FAIL	25
SWL-0057	Product Detail Page	Verify whether the page contains button to return to previous page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product	Nil	The page should contain button to return to previous page	The page contains button to return to previous page	PASS	
SWL-0058	Product Detail Page	Verify whether the 'Back to Products' button redirects to the products page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select product 7) Select Back to products	Nil	The 'Back to Products' Button should redirect to product page	The 'Back to Product' Button redirects to product page	PASS	
SWL-0059	Cart Page	Verify whether the page elements are aligned properly	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart icon	Nil	The page elements should be aligned properly	The page elements are aligned properly	PASS	26
SWL-0060	Cart Page	Verify whether the page displays the quantity of items selected	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart icon	Nil	The Page should display the quantity of items selected	The page displays the quantity of items selected	PASS	
SWL-0061	Cart Page	Verify whether the product detail page contains the button to increase and decrease the quantity of selected product	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart icon	Nil	The product detail page should contain the button to increase and decrease the quantity of the product	There is no button to increase or decrease the quantity of product	FAIL	
SWL-0062	Cart Page	Verify whether each selected product contains the image of the specific products	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart icon	Nil	Each selected product should contain the image of the specific products	Does not contain image of the products	FAIL	27
SWL-0063	Cart Page	Verify whether an error message is displayed when selecting checkout with empty cart list	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart icon 7) Select Checkout	Nil	The error message should be displayed regarding 'the cart is empty'	NO error message is displayed and the page is redirecting to informtaion page without cart items	FAIL	28
SWL-0064	Cart Page	Verify whether the buttons in the page has hover transition effect enabled for better user experience	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart icon	Nil	The buttons should have hover transition enabled	The buttons does not have hover transition enabled	FAIL	29
SWL-0065	Cart Page	Verify whether selecting product name redirects to product detail page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart icon 7) select product name	Nil	The page should redirect to product detail page	The page redirects to product detail page	PASS	
SWL-0066	Cart Page	Verify whether selecting Continue shopping redirects to home page/products page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart icon 7) Select Continue shopping	Nil	The page should redirect to home page	The page redirects to home page	PASS	

PROJECT NAME : SWAG LABS TESTING									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
SWL-0067	Cart Page	Verify whether selecting remove option removes the product from cart	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart 7) Select Remove	Nil	Removes the product from cart	The product has been removed from cart	PASS	
SWL-0068	Cart Page	Verify whether the page contains option for checkout	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart	Nil	The page should contain option for checkout	The page contains option for checkout	PASS	
SWL-0069	Cart Page	Verify Whether Selecting Checkout option redirects to checkout information page	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart 7) Select checkout	Nil	Selecting Checkout option should redirects to checkout information page	Selecting Checkout option redirects to checkout information page	PASS	
SWL-0070	Cart Page	Verify whether the page contains option for 'save for later'	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart	Nil	The page should contain 'save for later' option	The page does not contain 'save for later' option	FAIL	30
SWL-0071	Cart Page	Verify whether when cart is empty 'no items in the cart' or 'cart is empty' message is displayed	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select cart	Nil	The page should display the appropriate message for empty cart	The page does not display any message when cart is empty	FAIL	31
SWL-0072	Cart Page	Verify whether the page shows total number of products selected apart from their quantity	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart	Nil	The page should display the total number of products in the cart	The page does not shows the total number of products	FAIL	32
SWL-0073	Cart Page	Verify whether the page displays total amount of the selected products	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart	Nil	The page should display the total amount of the selected products	The page does not displays the total amount of the selected products	FAIL	33
SWL-0074	Checkout: Address page	Verify whether the text elements and fields in the page are aligned properly	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout	Nil	The text elements and fields should be in properly aligned format	The page header is not neatly aligned	FAIL	34
SWL-0075	Checkout: Address page	verify whether the page contains fields to enter name, address, pincode, mobile number, landmark fields	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout	Nil	The page should contain all the specified fields	The page does not have fields for address, mobile number, landmark	FAIL	35
SWL-0076	Checkout: Address page	Verify whether the page has hover transition enabled for buttons , fields and card	valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout	Nil	The page should contain the transition effect	The page does not contain the transition effect for buttons and fields	FAIL	36

PROJECT NAME : SWAG LABS TESTING									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
SWL-0077	Checkout: Address page	Verify whether the page contains button to redirect to previous page/ cart page	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout	Nil	The page should contain the button to redirect to previous page	The page contains button to return to previous page	PASS	
SWL-0078	Checkout: Address page	Verify whether the cancel button redirects to previous page	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout 9) Select Cancel	Nil	The page should redirect ro previous page	The page redirects to previous page	PASS	
SWL-0079	Checkout: Address page	Verify whether proceeding checkout with blank fields gives error message regarding fields not entered	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout 9) Continue	Nil	The page should display error message	The page displays error message	PASS	
SWL-0080	Checkout: Address page	Verify whether proceeding checkout with only filling name and leaving other fields blank gives error message regarding fields are not entered and vice versa	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout 9) Enter Name 10) Continue	Name: vignesh	The page should display error message	The page displays error message	PASS	
SWL-0081	Checkout: Address page	Verify whether the pincode accepts data only in integer format	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout 9) Enter Name 10) Enter last name 11) Enter text in pincode field	Name: vignesh last name: vinod pincode:ccddd	The pincode entered in text format should not be accepted	The pincode entered in text format is accepted	FAIL	
SWL-0082	Checkout: Overview page	Verify whether the text fields and elements are aligned properly	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout 9) Enter Name 10) Enter last name 11) Enter pincode 12) Continue	Nil	The text fields and elements should be aligned properly	The text fields and elements are properly aligned	PASS	

PROJECT NAME : SWAG LABS TESTING									
Test Case ID	Module Name	Test Case Description	Precondition	Test Step	Test Data	Expected Result	Actual Result	Status	
SWL-0083	Checkout: Overview page	Verify whether product image is displayed along product description	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout 9) Enter Name 10) Enter last name 11) Enter pincode 12) Continue	Nil	The product image should be displayed along product description	The product image is not displayed along product description	FAIL	38
SWL-0084	Checkout: Overview page	Verify whether selecting product name redirects to product detail page	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout 9) Enter Name 10) Enter last name 11) Enter pincode 12) Continue 13) Select product name	Nil	The page should redirect to product detail page	The page redirects to product detail page	PASS	
SWL-0085	Checkout: Overview page	Verify whether the page displays the product list and the bill details in a grid row style for better user friendly environment, otherwise the user need to scroll down to view the total bill and other details	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout 9) Enter Name 10) Enter last name 11) Enter pincode 12) Continue	Nil	The Product list and order summary should be in grid row style format	The Product list and order summary is not in grid row style format	FAIL	39
SWL-0086	Checkout: Overview page	Verify whether the page contains input for prepered delivery time	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout 9) Enter Name 10) Enter last name 11) Enter pincode 12) Continue	Nil	The prepered delivery time input must be present	There is no field regarding prepered delivery time	FAIL	40
SWL-0087	Checkout: Overview page	verify whether the page displays address for delivery	Valid url	1) goto website. 2) Enter valid Username 3) Enter valid Password 5) Enter Login Buton 6) Select Products 7) Select cart 8) Select Checkout 9) Enter Name 10) Enter last name 11) Enter pincode 12) Continue	Nil	The page should display address details for delivery	The page does not displays the details entered for delivery	FAIL	41
